

Tierpräparate

Anleitung zu einem Tierpräparat: The Complete Handbook of Taxidermy, a Step-by-Step Guide

1. Begin skinning at the crown.
2. It 's best to cook all the flesh from the skull cap.
3. Restore the natural shape of the head with clay or maché.
4. The mount looks terrible now, but pinning stripes of cardboard over sewn places will insure a smooth appearance when dry.
5. This deer head was mounted according to the alternative method. Here it's in the drying room.
6. How to make profit from taxidermy: Girls and women are easily trained to mount small game heads some faster than men.
